

1. Hacer un fork del repositorio en mi cuenta AOG2425

The screenshot shows a GitHub forked repository page for 'practica_dwec_presupuesto'. The repository was forked from 'elisanoguera/practica_dwec_presupuesto'. It has 1 branch and 0 tags. The main branch is up to date with the original repository. The repository structure includes '.github/workflows', '.vscode', 'css', 'enunciados', 'js', 'test', '.gitignore', and 'LICENSE'. The README file contains instructions for creating an application iteratively.

2. Clonar repositorio y acceder a la carpeta

The screenshot shows a terminal window on a Windows system (MINGW64) cloning the repository 'practica_dwec_presupuesto' from GitHub. The command used was '\$ git clone https://github.com/AOG2425/practica_dwec_presupuesto'. After cloning, the user navigates into the repository directory with '\$ cd practica_dwec_presupuesto'. The terminal shows the repository is at the 'main' branch.
